Brand New Book ***** Print on Demand *****.A celebration of all species, centrifuged into verse. Litany of the Plants is an exquisite collection of 52 poems-smug poems, poems expressing gratitude, poems of joy, satire, appreciation, romance, and rebellion-narrated by a variety of voices. These voices include a person near senility, a barroom ranter, a confessor, a clown, a bureaucrat, a racist, and a romantic, while three very different travelers narrate the North Dakota poems. There are consumers of scientific research, the observer of nature, and even a fern that offers an observation about landscape paintings. Written primarily in free verse and rich in slant rhyme and consonance, these poems feature a curiosity about life, science, and the struggle for existence. Flowing like an undercurrent throughout the collection is a celebration of scientific inquiry and its accomplishments.and the joy to be found in the natural world.
