The work extended over a period of somewhat more than a year. The earlier part of the investigations were embodied in a partial report which was submitted in the contest for the Faculty Prize in Chemical Research in April, 1902. The work in perfecting the apparatus for cleansing wool was continued without interruption until August, - after which time the investigations on the by-products was again resumed, - and is still in progress at the present time. In June applications were made for patents on both the apparatus and the process for cleansing the wool. Most of the claims were lately rejected in lieu of those which had been filed by Edward Maertens of Providence, Rhode Island (Vide U. S. Patents 698,207, - 8, - 9, - 10, - 11, April 22, 1902.) There were however sufficient differences to warrant a contest, so the matter is still pending. On June 16th of this year the Census Bureau published a bulletin by S. N. D. North on the Utilization of Wastes and By Products in Manufacture. In it considerable attention is paid to the wastes of wool washing establishments. Mr. North points out many features of attempted improvement in modern methods of wool washing. There are many other similarities between his article and the one published by the author of this paper, several months previously....
