Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Edinburgh University Press. Paperback. Book Condition: new. BRAND NEW, Discourse in Late Modernity: Rethinking Critical Discourse Analysis, Lilie Chouliaraki, Norman Fairclough, Discourse in Late Modernity sets out to show that critical discourse analysis is strongly positioned to address empirical research and theory-building across the social sciences, particularly research and theory on the semiotic/linguistic aspects of the social world. It situates critical discourse analysis as a form of critical social research in relation to diverse theories from the philosophy of science to social theory and from political science to sociology and linguistics. First, the authors clarify the ontological and epistemological assumptions of critical discourse analysis - its view of what the social world consists of and how to study it - and, in so doing, point to the connections between critical discourse analysis and critical social scientific research more generally. Secondly, they relate critical discourse analysis to social theory, by creating a research agenda in contemporary social life on the basis of narratives of late modernity, particularly those of Giddens, Habermas, and Harvey as well as feminist and postmodernist approaches. Thirdly, they show the relevance of sociological work in the analysis of discursive aspects of social life, drawing on the work of Bourdieu and Bernstein to theorise the dialectic of social reproduction and change, and on post-structuralist, post-colonial and feminist work to theorise the dialectic of complexity and homogenisation in contemporary societies. Finally, they discuss the relationship between systemic-functional linguistics and critical discourse analysis, showing how the analytical strength of each can benefit from the other. * Sets out a new and distinctive theoretical grounding and research agenda for critical discourse analysis * Interdisciplinary in scope * Draws on a broad range of theories and approaches.
